V. Assignments and Course Requirements

A. Course Design. Class time will include lecture, discussion, demonstrations, presentations, virtual interactions, and time for collaboration. Students will have individual and group assignments.

B. Assignments. The assignments, which are worth a total of 100 points, are listed below. Please note all assignments should be posted and/or shared to the appropriate area of the course web space. Assignment descriptions and rubrics will be available on the course site. Please use either APA or MLA format (style and citation) where appropriate. Files that are submitted should be named using the formula lastname_assignmentname.

1. Reflections on Professional Literature and Landscape of the Field – 15 points

In order to get familiar with the professional literature and the landscape of the field, each student will complete **five** personal reflections on an aspect of a particular journal, blog, or other information resource related to school library practice and/or research. Each reflection should focus on a different resource in order to give each student exposure to the variety of available resources.

Addresses course objective which states, “Explore the professional literature to answer essential questions about school libraries.”

DUE July 2, July 9, July 16, July 23, and July 30

2. Vision and Mission Statement – 5 points

Each student will develop a vision and mission statement for a high quality school library media program based on standards and core competencies. You may choose to write general statements you can carry with you into practice or you may choose to write statement for a specific program, real or imagined.

Addresses course objective which states, “Articulate a personal vision of a quality school library.”

DUE July 11

3. Assessment of the School Library Program – 10 points

Students will work in small groups to create a presentation of no more than fifteen minutes that assesses a district’s school library program using *Linking for Learning*. Your group will represent librarians from schools in your district

and make the presentation as if the audience is the school board, district administrators, and community members. Use whatever tools you deem necessary to make your presentation.

Addresses course objective which states, “Practice means for assessing and advocating for school libraries.”

DUE August 1

4. Issues in School Library Management Presentation – 20 points

Students will each develop some expertise within a key area or topic of school library media management and share that expertise in a session for the class.

The presentation will be 20 minutes and an accompanying research-based resource about the issue will be prepared. Students will choose topics from a list of possibilities. Other ideas are welcome but must be approved in advance. The presentation will include both oral and visual components.

Addresses the course objective which states, “Examine the history, purpose, function, and structure of school libraries.”

DUE at time of presentation. Sign up for a date between July 9 – August

6. No more than two students may give their presentation on any one day.

5. Action Plan – 10 points

Normally this course includes a visit to multiple school libraries. However, since our course falls at a difficult time to visit and see a school library in action, we are going to bring several practitioners to our class. Each student will create EITHER a written report (aim for about 1200-1500 words in length) OR a multi-media object that details an action plan item for a school library that has been inspired by a need you discovered through talking with a librarian.

Addresses the course objectives which state, “Analyze school libraries in action through field observations and interviews” and “Realize the instructional, administrative, and leadership roles of school librarians”.

DUE August 8

6. Collection Development Proposal – 20 points

Build or enhance a section of a school library collection. While working under the constraints of a budget to build this collection, students will evaluate and select materials to best meet student and teacher needs. Students will use a range of professional resources to help design the proposed collection and be able to articulate what sources were used as well as explain how the proposed collection materials will meet the need of the targeted users.

Addresses the course objective which states, “See strategic planning as a means to manage human, financial, and physical resources in a school library.”

DUE August 13

7. Portfolio – 5 points

The Illinois State Board of Education requires a professional portfolio for prospective educators. Students will begin to fulfill the portfolio requirement in LIS773 in preparation for the exit interview from the SLMP program. The LIS773 portfolio will contain aspects from your work completed in the course.
DUE August 15

8. Class Participation and Commitment – 15 points

It is expected that students will be active participants within the course. The course grade, particularly the class participation component, will be impacted by absences and missing class time. Students are expected to have read the assigned materials prior to class. Students are encouraged to share relevant prior knowledge and professional experiences that will help inform and enrich the class meetings. There will be some in class activities that will contribute to the class participation grade.

VI. Assessment

Graduate students are expected to attend each class, be punctual, and produce work of professional quality with citations wherever appropriate. It is also understood that graduate students have commitments outside of course work. It is the responsibility of the student to obtain any material covered or assignments missed. Missing class time may result in a grade deduction.

All course participants are expected to conduct themselves in accordance with the standards outlined in the academic integrity statement. “Students of the university must conduct themselves in accordance with the highest standards of academic honesty and integrity. Failure to maintain academic integrity will not be tolerated.” (DU 2008-2010 *Student Handbook and Planner*, 20)

All assignments will be due at the beginning of the class period. Late work will result in a grade reduction. All written work should be clear and error free.

Grading Scale

A	A-	B+	B	B-	C+	C	C-	D	F
95-100	90-94	85-89	80-84	75-79	70-74	65-69	64-below		

The faculty of the Graduate School of Library and Information Science use the following guidelines in grading:

Grade	Numeric Equivalent	Definition
A	4.0	Outstanding achievement. Student performance demonstrates full command of the course materials and evinces a high level of originality and creativity that far surpasses course expectations; nearly flawless work.

A-	3.67	Excellent achievement. Student performance demonstrates thorough knowledge of the course materials and exceeds course expectations by completing all requirements in a superior manner.
B+	3.33	Good solid work. Student performance demonstrates strong comprehension of the course materials and exceeds course expectations on all tasks as defined in the course syllabus.
B	3.0	Satisfactory acceptable work. Student performance meets designated course expectations, demonstrates understanding of the course materials and performs at an acceptable level.
B-	2.67	Marginal work. Student performance demonstrates incomplete, substandard understanding of course materials, or absence of required work; indicates danger of falling below acceptable grading standard.
C+	2.33	Unsatisfactory work. Student performance demonstrates unsatisfactory understanding of course materials and inability to meet course requirements.
C	2.0	Unacceptable work. Student performance demonstrates incomplete and inadequate understanding of course materials.
C-	1.67	Poor work.
F	0.0	Failing Grade.
